Description

Do not be caught out this winter with a frozen windscreen and nothing to deice your car with but your kettle and a credit card. This is definitely not an ideal scenario. Make sure you are well prepared with **Arctic Windscreen De-icer**; the superior option for de-icing your vehicle.

Arctic Windscreen De-icer is 100% pure de-icing spray with no aerosol filler. This means you get 3 times the de-icing capacity in each bottle.

Arctic Windscreen De-icer can be used to prevent your windscreen freezing in the first place when applied the night before as well as a powerful de-icer to deice your car after ice has formed.

It dissolves ice and snow quickly when applied onto frozen windscreens, headlights, side mirrors and windows without damaging paintwork, rubber or plastic.

Description

Arctic de-icer is the premium option for clearing your windscreen; it works at temperatures as low as -50°C (-58°F) and keeps windscreens clear for up to 24 hours without refreezing.

It is non corrosive to your car and environmentally safe to use.

Deice your car this winter with **Arctic Windscreen De-icer** for reliable long lasting results.

How To Use

Simply spray onto surface to be de-iced, ice starts melting in seconds.

Arctic Windscreen De-icer is 100% pure de-icing spray with no aerosol filler.

100% pure spray 1 litre = 3 large aerosol cans.

Acts quickly upon frozen windscreens, headlights, side mirrors and windows. Get a good clear windscreen without annoying wiper squeaks. Safe for paintwork, rubber or plastic. Streak free finish. Can also be used on tinted window.

Easily removes bugs and nicotine film. Aids removal of dirt from vehicle wind screen.

Say "No" to the snow and ice with this special artic winter de-icing product.

Laboratory Facilities

Hydra International Ltd's Research & Development Laboratories are a hub of activity where new products are developed and formulated. We have working relationships with our raw material suppliers, many of these suppliers are major world-wide chemical manufacturers with their own development laboratories.

As a company we are well known in the chemical industry for being receptive to cutting edge new chemicals which can be incorporated into our products to achieve performance advantages. An important part of the International Standards that we hold is that of constant improvement. We show that we have achieved this at every independent audit.
