- ◆ Non-smearing as well as de-icing.
- ◆ Guaranteed non-corrosive and harmless to all automotive finishes, glass, rubber and paint-work.
- ◆ Improves visibility when driving and ensures you can see at all times.
- ◆ Easy to use, simply add to your washer fluid reservoir neat or diluted.
- ◆ **Hydra Arctic Windscreen Wash** can be used all year round effectively, don't just stop at winter.
- ◆ Excellent cleaning action which easily removes dirt, tree sap, bugs and water spots with no residues or streaking.
- ◆ Helps prevent windscreen refreezing.
- ◆ Improves wet weather driving visibility by repelling rain, sleet and snow.

Description

Hydra's Arctic Windscreen Wash is the premium windscreen wash additive option for use in winter.

Ideal for use in all makes of vehicles and vans. Its unique alcohol blend protects against re-freezing 24/7 and will work down to -40°C .

Hydra's Arctic Windscreen Wash is 100% pure product, meaning a more concentrated blend with up to 3x the de-icing capacity of many other products on the market.

As well as de-icing your windshield, **Hydra Arctic Windscreen Wash** will cut through grime and dirt leaving smear free windscreens for optimum visibility.

Available in a range of sizes and refills, there is a bottle to suit all requirements.

Hydra Arctic Windscreen Wash's exceptional cleaning power leaves a crystal-clear, non-smear finish to all windscreens.

Can be diluted to suit any weather conditions.

Description

Are you looking for the best screen-wash on the market? Driving in unpredictable weather conditions can be difficult enough without the worry of not being able to see properly.

It is imperative to have a reliable windscreen wash that is going to work when temperatures hit freezing. Do not be a hazard to yourself and others on the road by ensuring you use the best screen-wash available - Hydra's Arctic Windscreen Wash.

Premium winter windscreen wash protects windscreen washer lines from freezing down to -40°C .

Arctic Windscreen Wash is a concentrated wash fluid additive that you simply add to your washer fluid reservoir.

The powerful formulation has dual action that protects washer lines & nozzles from freezing as well as removing dirt, traffic grime and salt from windcreens leaving them sparkling clear when visibility is most crucial.

Used at full strength without dilution, **Arctic Windscreen Wash** will be effective down to -40°C , the best screen-wash there is.

How To Use

- ◆ Use neat for Freezing Point up to -40°C (-40°F)
- ◆ Use 50% with water for Freezing Point up to -20°C (-4°F)
- ◆ Use 25% with water for Freezing Point up to -10°C (-14°F)
- ◆ Use 1:20 with water for Above 0°C (32°F)

Laboratory Facilities

Hydra International Ltd's Research & Development Laboratories are a hub of activity where new products are developed and formulated. We have working relationships with our raw material suppliers, many of these suppliers are major world-wide chemical manufacturers with their own development laboratories.

As a company we are well known in the chemical industry for being receptive to cutting edge new chemicals which can be incorporated into our products to achieve performance advantages. An important part of the International Standards that we hold is that of constant improvement. We show that we have achieved this at every independent audit.
