

HYDRA BIO LOO

Biological Toilet Cleaner

HYDRA[®]

Features & Advantages

- ◆ An environment friendly deodorizer and descaler to clean and disinfect washroom fittings and all sanitary ware.
- ◆ Powerful biocide action dissolves grime and scale without harming the surface or environment.
- ◆ Natural oxidising process boosts the natural bacteria in sewage plants and septic tanks.
- ◆ An effective deodoriser that breaks down bad odour causing sulphides. Added fragrance lingers after cleaning.
- ◆ Fast acting action dissolves away scale & grime.
- ◆ Single product that works on all surfaces including chrome, vitreous enamel, stainless steel, tiles, marble flooring, ceramics or stone.
- ◆ Fast acting constituents dissolve and remove soap scum, body fat, mineral scale, lime scale as well as uric acid scale.
- ◆ A potent disinfectant that kills off harmful bacteria and micro organisms (including verruca spores) that causes skin diseases.
- ◆ De-Scales, de-odourises, cleans, & disinfectants in one easy operation.
- ◆ Kills germs and bacteria on contact.

Description

Bio Loo is a versatile toilet cleaner for use on most surfaces around the washroom/bathroom. The product effectively cleans, sanitises and brightens all sanitary ware.

Destroys Bacteria and germs:

Potent biocides in the composition destroy harmful microbes as well as prevent further bacterial growth to stop cross infection.

Removes unsightly scale:

Leaves the surface sparkling clean by removing scale deposits.

Boosts natural bacteria:

The oxidising action of Bio Loo promotes favourable bacteria in sewage plants and septic tank.

This property sets bio loo apart from ordinary cleaners which are detrimental to the biome in effluent treatment plants.

An eco-friendly toilet cleaner to descale, de-odourise and disinfect toilets, bathroom tiles, urinals, spa baths, Jacuzzis, shower heads, taps and all other chromium or stainless steel washroom fittings.

Bio Loo leaves the cleaned surfaces pleasantly fragrant. It removes the sulphides that cause bad smell.

The Solution

Bio Loo is a eco-friendly toilet cleaner designed to descale, deodorise and disinfect toilets, bathroom tiles, urinals, spa baths, Jacuzzis, shower heads, taps and all other chromium or stainless steel washroom fittings. Includes powerful biocides that kill off harmful microorganisms including verruca spores.

Deodorise Bio Loo contains pleasing perfume that leaves your bathroom area fragrant. It also breaks down bad odour creating sulphides.

For Toilets

Direct nozzle into and under rim of toilet or directly onto back of wall of urinals. The clinging action of Bio Loo ensures that even after several flushes the water still remains sweet.

For Shower Walls, Baths, Jacuzzis, Sink

Apply by sponge or bath sponge and work over areas to remove scale and body fat. Rinse off with clean water.

For Scaled Stainless Steel Fittings

Apply by abrasive sponge scrub with small brush, leave until scale has dissolved or completely softened. Rinse off with clean water.

To Brighten Stainless Steel/Chrome

Apply by sponge, rub. Rinse off with clean water.

How To Use

- ◆ Bio Loo is available in convenient to use 1 litre containers.
- ◆ To clean toilet bowls, direct the nozzle under the toilet rim. Apply directly on the urinal wall's back.
- ◆ To clean scaled surfaces/fittings of stainless steel, apply the product using abrasive sponge. Wait for some time until the scale dissolves or completely softens. Rinse with water.
- ◆ To clean Jacuzzis, baths, shower walls or sinks apply using bath sponge and rub to get rid of scale or any other deposition. Rinse off using clean water.
- ◆ To brighten and shine chrome or stainless steel fittings apply Bio Loo with the help of a sponge. Rinse away with water.

Laboratory Facilities

Hydra International Ltd.'s Research & Development Laboratories are a hub of activity where new products are developed and formulated. We have working relationships with our raw material suppliers, many of these suppliers are major world-wide chemical manufacturers with their own development laboratories.

As a company we are well known in the chemical industry for being receptive to cutting edge new chemicals which can be incorporated into our products to achieve performance advantages. An important part of the International Standards that we hold is that of constant improvement. We show that we have achieved this at every independent audit.
