

HYDRA

Blu Brite

Toilet & Stainless Steel Cleaner

HYDRA®

Features & Advantages

- ◆ Descales & Disinfects.
- ◆ Baths, Sinks & Showerheads.
- ◆ Brightens Stainless Steel & Chrome.
- ◆ Sage in Septic Tanks.
- ◆ Thickened with Pleasant Perfume.

Eco friendly Hydra Blu Brite helps the growth of natural bacteria residing in the sewage systems and septic tanks.

Unlike other cleaners that kill off the favourable waste reducing microbes, Hydra Blu Brite promotes their growth and aids in effective waste treatment.

Description

Hydra Blu Brite

Hydra Blu Brite is an eco-friendly toilet cleaner designed to descale, deodorise and disinfect toilets, bathroom tiles, urinals, spa baths, Jacuzzi's, shower heads, taps and all other chromium and stainless steel washroom fittings.

Includes powerful biocides that kill off harmful microorganisms including verruca spores.

Deodorise Hydra Blu Brite contains pleasing perfume that leaves your bathroom area fragrant. It also breaks down bad odour creating sulphides.

Eco friendly Hydra Blu Brite helps the growth of natural bacteria residing in the sewage systems and septic tanks.

Unlike other cleaners that kill off the favourable waste reducing microbes, Hydra Blu Brite promotes their growth and aids in effective waste treatment.

How To Use

Toilets

Direct nozzle into and under rim of toilet or directly onto back of wall of urinals. The clinging action of Hydra Blu Brite ensures that even after several flushes the water still remains sweet.

Shower Walls, Baths, Jacuzzis, Sinks

Apply by sponge or bath sponge and work over areas to remove scale and body fat. Rinse off with clean water.

Scaled Stainless Steel Fittings

Apply by abrasive sponge scrub with small brush, leave until scale has dissolved or completely softened. Rinse off with clean water.

Brighten Stainless Steel & Chrome

Apply by sponge, rub. Rinse off with clean water.

Laboratory Facilities

Hydra International Ltd.'s Research & Development Laboratories are a hub of activity where new products are developed and formulated. We have working relationships with our raw material suppliers, many of these suppliers are major world-wide chemical manufacturers with their own development laboratories.

As a company we are well known in the chemical industry for being receptive to cutting edge new chemicals which can be incorporated into our products to achieve performance advantages. An important part of the International Standards that we hold is that of constant improvement. We show that we have achieved this at every independent audit.
