

# HYDRA Fountain Clear

Keeps Water Crystal Clean

HYDRA®

## Features & Advantages

Total Steriliser for water fountains and features.

- ◆ Not for use if fish, plants or invertebrates are present.
- ◆ Keeps the fountain surface and other water features surfaces free of the bio-film build up, helps prevent white deposit build-up on surfaces.
- ◆ Reduces mentioned microbes by 99.9% in less than 3 hours: *Escherichia coli*, *Streptococcus agalactiae*, *Micrococcus luteus*, *Staphylococcus*, *Pseudomonas aeruginosa* and *Legionella pneumophila* (responsible for Legionnaires Disease). Effective upon various micro-organisms.

- ◆ Quick and fast results even at low concentrations.
- ◆ Available in non-foaming, easy to dispense liquid form.
- ◆ Effective over wide range of temperature.
- ◆ Water hardness does not affect the efficacy of the product.
- ◆ Non-ionic, odourless formula.

## Description

Hydra Fountain Clear is suitable for use in all fountains, water features and water re-circulation systems.

It's sterilising effects keeps water clean and sterile.

Keeps the fountain surface and other water features surfaces free of the bio-film build up, helps prevent white deposit build-up on surfaces.

It is highly effective in preventing the build up of bio films in fountains and other water features systems.

Use Hydra Fountain Clear to sterilise water in all water re-circulation systems and water features.

The product helps you get clear water fountains. Special non-foaming, no-ionic, odourless formula acts effectively even at diluted rates and poses no harmful effect on the environment.

Hydra Fountain Clear does not remain in the water for long and quickly decomposes into environment-friendly by-products.

## Description

### ENVIRONMENTAL FRIENDLY

Discharge of the low concentrations commonly used in fountains poses no environment threat. Because of its rapid hydrolysis, Hydra Fountain Clear is not recommended for use in systems above pH 9.0.

### EFFICIENCY

Hydra Fountain Clear has been tested for efficacy against a wide variety of micro-organisms.

Hydra Fountain Clear has been shown to produce at least a 99.9% reduction in microbial populations of the species listed below after a maximum contact time of 3 hours.

*Legionella pneumophila (Legionnaires Disease), Pseu-domonas aeruginosa, Staphylococcus, Micrococcus luteus, Streptococcus agalactiae, Escherichia coli.*

Hydra Fountain Clear will sterilise water in all water re-circulation systems and water features.

It helps you keep water clear in fountains.

Special non-foaming, no-ionic, odourless formula acts effectively even at diluted rates and poses no harmful effect on the environment.

## How To Use

### Initial Shock Dose Dilution rate

1 litre: 10,000 litres of water.

(1 ml to every 10 litres of water).

### Maintenance Doses

Treat weekly-monthly depending on local conditions.

Dilution rate- 1 litre: 30,000 litres of water.

(1 ml to every 30 litres of water).

## Customer Reviews

### ★★★★★ **Fast Acting and Efficient**

By *Richard*

For the last month our fountain has been full of green slime and the water cloudy and dirty, so after reading the reviews for this product, I ordered a litre which arrived within a day of ordering. Within an hour of "shocking" the water, I noticed a difference and this morning, there is no slime and clear water. A first rate product.

### ★★★★★ **Best For Clear Water**

By *pwd*

Excellent product. Keeps our water feature really clear.

### ★★★★★ **The Best I Have Ever Used**

By *pwd*

Excellent product. They do many other products, but this is the best.

### ★★★★★ **Brilliant product**

By *Susanne*

Does what it says. Tried so many other products to get my water feature clean and "green" slim and colour free but they all failed. This product delivers. It makes the water a bit blue but I don't mind that as it is crystal clear fully recommend

### ★★★★★ **Very Impressed. My Water Feature is in Direct Sunlight ...**

By *Peter*

Very impressed. My water feature is in direct sunlight and the water prone to algae / bloom / discolouration. I applied a very small amount of this product and can say the water stayed crystal clear.

### ★★★★★ **Five Stars**

By *ackers29*

EXCELLENT PRODUCT WILL CERTAINLY USE THIS WATER STERILISER AGAIN

### ★★★★★ **Top Quality Product**

By *Nigel*

I contacted Hydra with a question and they got back with an answer immediately. This is a top quality item and noticed a difference with just the initial treatment a top quality product Highly recommended.

### ★★★★★ **Excellent, I Have 2 Solar Fountains in Which The ...**

By *Naber*

Excellent ,I have 2 solar fountains in which the water turned green within a couple of days and i have to scrub them clean every time. Now with 1 drop of the fountain clear it stays clear for over 2 weeks, we also get a lot of birds who drink and bathe in the fountains but they seem to suffer no effects.

### ★★★★★ **It Really Does Work Will Certainly Buy Again!!**

By *Joe*

Really excellent product not only keeps my 2 out door water clear but in one of them over time as cleaned all the pebbles which used to be such a pain to clean every 2 weeks with a scrubbing brush!!
